FOREWORD

What and where are the vacant public lands of the United States; how much remains in any given State? This question is asked most frequently today in relation to the possibility of the acquisition of such land by ex-servicemen. The General Land Office presents this bulletin in answer to that inquiry.

Three major points should be kept in mind with respect to the vacant public lands in continental United States. First: these lands, originally extending westward from the Atlantic seaboard to the Pacific Ocean, have been subject to disposal under Federal statutes for more than 100 years. As a result, today the total acreage and types of tracts available for successful settlement are greatly reduced.

Second: It is not possible to secure public land of the United States on an "order by mail, sight unseen" basis, because applications must be accompanied by a sworn statement that the applicant has inspected the land sought and is personally familiar with its characteristics.

Third: In general, no portion of the public lands in the continental United States can be acquired until it has first been classified by the Government as best suited for the use to which it is intended to be put, and no occupancy of the land is permitted until such favorable classification has been had. Petition for classification must be submitted at the time application is made for the land.

If, after careful reading of this bulletin, additional information is desired concerning vacant public lands, inquire of the Register of the appropriate District Land Office. A map showing the District land offices is given within. Or, you may address your inquiry to the Commissioner, General Land Office, Department of the Interior, Washington 25, D. C.

(Signed) FRED W. JOHNSON,
Commissioner.

JANUARY 15, 1945.

VACANT PUBLIC LANDS

GENERAL INFORMATION

Briefly, the public domain consists of land belonging to the United States either ceded to the Federal Government by the Original Thirteen States which secured it by grants from foreign sovereigns, or acquired by treaties, purchase or rights of exploration in the earlier days of the Republic.

The lands in the following States are not part of the public domain; their disposal is governed by State laws, and information concerning them should be sought from the State authorities:

| | | |
|---------------|----------------|----------------|
| Connecticut | North Carolina | South Carolina |
| Delaware | New Hampshire | Tennessee |
| Georgia | New Jersey | Texas |
| Kentucky | New York | Vermont |
| Maine | Pennsylvania | Virginia |
| Maryland | Rhode Island | West Virginia |
| Massachusetts | | |

No public lands are known to the General Land Office to remain undisposed of in the States of Illinois, Indiana, Iowa, or Ohio.

Small areas in widely scattered tracts remain in the States of Alabama, Arkansas, Florida, Kansas, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, Oklahoma, and Wisconsin. As there are no district land offices in these States, all business relating to the public lands must be transacted with the General Land Office, Washington, D. C.

Information as to the location of unappropriated tracts of the public domain may be obtained by a careful examination of the records of either the district land offices or of the General Land Office in Washington.

No maps of States and counties showing the location of the vacant public lands can be furnished, but township diagrams and plats giving information specified below may be prepared and sold by the registers of the various district land offices at the following prices:

For a township diagram showing entered land only, \$1.

For a township plat showing form of entries, names of claimants, and character of entries, \$2.

For a township plat showing form of entries, names of claimants, character of entry, and number, \$3.

For a township plat showing form of entries, names of claimants, character of entry, number and date of filing or entry, together with topography, etc., \$4.

The General Land Office will be glad to furnish information as to the record status of any particular tract if the legal subdivision, section, township, and range thereof, according to the public land survey, is given, or, if unsurveyed, if identified by its relative position to adjacent surveyed lands.

No stamps or self-addressed envelopes need be sent with inquiries.

Tabulations follow, showing the areas of the remaining public lands, as of June 30, 1944. The first table shows the areas by States in all the public land States; the second list shows the areas by States, counties, and land districts in the public land States in which district land offices

are maintained. Neither tabulation includes areas acquired through purchase by the Government for resettlement, surmarginal land administration, military or other purposes.

In addition to these vacant public lands in the States, there are approximately 225,000,000 acres outside of grazing districts in the Territory of Alaska, making a grand total of 263,007,690 acres outside grazing districts, 131,006,062 acres within grazing districts, and 394,013,752 in the aggregate.

The vacant public land within grazing districts is generally used for the raising of livestock under licenses or permits issued by the Grazing Service, Department of the Interior.

A large proportion of the vacant public land outside grazing districts is used for the same purpose under the jurisdiction of the General Land Office.

The remainder in continental United States consists of such types of land as, with few exceptions, to make doubtful their classification for homestead or settlement use.

Area of vacant lands, by States, June 30, 1944

DISTRICT LAND OFFICES

The location of the 22 District Land Offices in continental United States is shown on the following map. Broken lines denote State boundaries; solid lines indicate the boundaries of District Land Office jurisdictions, when not identical with the State lines. Inquiry concerning vacant public lands in States not shown on the map should be made of the Commissioner, General Land Office, Washington 25, D. C.

In Alaska, district land offices are maintained at Anchorage, Fairbanks, and Nome.
